CONFIDENCE
CUTTING EDGE DESIGN**

CHINOOK XL Mid Engine CC—The Chinook mid-engine series has proven to be the industry’s leading technology-based watercraft. The mid-engine application provides a 360 degree usable area around the boat while also providing an unmatched, evenly balanced draft that equals unsurpassed performance and shallow water capability. Our go-to package pairs the Indmar Raptor 440 with a Hamilton 214 jet pump, with options up to the Raptor 575 or Yanmar diesel, and the Hamilton 241 or Southern Jet 216, so the power is matched to how you run your boat.
